!! 35th edition of the World Medical and Health Games !!

Dear Sir or Madam,

Every year since 1978, about 2,000 medical doctors and health professionals, from all over the world, meet up in a beautiful environment and a fabulous atmosphere to compete in their favourite sports and to assist to the International Symposium of Sports Medicine.

Our aim is to make of these World Medical and Health Games a key event in the Sport Medical World. That is why we are contacting you. Indeed:

- Your position certainly gives you an access to health profession members who might be interested in this sports event, would you please be so kind to inform them?
- Maybe you even have an access to some special boards dedicated to posting information. If that is the case, we would be grateful if you could post the attached poster in one of these locations,
- Finally, you could send an informative note to professionals you know which could be concerned by the event or you could just post our website link, www.medigames.com, onto yours.

Let’s meet from June 21st to 28th 2014 in Wels, charming little city of Upper-Austria. Participants will be seduced by its excellent sports facilities all close from each other, its warm city centre, its bars, and its gastronomy. This new edition of the MEDIGAMES will also be marked by the addition of 2 new sports in our program: Handball and Climbing! Finally lots of entertainment, such as live concerts, will be organised all the week and promise to be one of the greatest MEDIGAMES ever!!

To register as well as to get any practical information (sport programme, registration form, competitions’ rules, etc.), please do not hesitate to visit our website: www.medigames.com. For any additional request, or to ask for booklets or posters for your colleagues, please contact directly M. Jérémie ROUALET by sending an email to: roualet@medigames.com.

We thank you for the interest in this fraternal sporting event and are looking forward to meeting you in Wels next summer!

Warm regards,

The Organising Committee of the World Medical and Health Games
